COMMERCIAL GRADE, BUILT FOR PROFESSIONALS

S22HD HYDRO-DRIVE SEEDER

- GX270 Honda Engine
- All stainless steel seed hopper for corrosion resistance (50 pound capacity)
- 24" wide seed drop pattern
- Precision Drop™ seed dispensing system
- Hydro-Gear hydrostatic transmission for self-propulsion
- Hand controls for propulsion
- Hand controls for seed drop control
- 13" drive tires
- 5 depth position depth adjustment for delta reel blade + transport height

COMMERCIAL GRADE, BUILT FOR PROFESSIONALS

i2000D INVERTER

- 2,000 surge watts / 1,600 running watts
- 13.3 amps
- Dual fuel – will run off gas or propane
- Smart Throttle
 - Adjusts throttle automatically based off load
 - This feature can be turned on or off via a toggle switch
- 79.7cc OHV air cooled engine (single cylinder)
- 4,500 max. rated engine RPM (3,200 RPM at idle)
- Recoil start
- Outputs include:
 - 2 x AC socket: 120v/60hz
 - 1 x DC socket (battery charger): 12v/8A
 - 1 x USB socket: 5v/2A
- Up to 8-hour runtime at 50% load (1 gal. gas)
- Up to 2-hour runtime at 50% load (1 lb. propane)
 - 1 gal. fuel tank
- 51-60 dBA
- 44 lbs. dry weight
- Parallel kit available as an accessory
 - 30 amp starting capacity / 25 amp running capacity
 - 3,600 surge watts / 3,000 running watts
- 2 year warranty

COMMERCIAL GRADE, BUILT FOR PROFESSIONALS

BLUEBIRD ELECTRIC ADVANTAGES

- 125v power for electric performance equal to gas
- Designed & built for professionals
- Lower noise level, allowing you to work during noise restricted times and in noise restricted areas
- Environmentally friendly
- No exhaust emissions or odor when operating
- No fuel costs
- No gasoline odor, spillage, winterization, waste, need for fuel containers, etc.
- Low maintenance
- Reduced downtime
- Significantly improved productivity and profitability
- Lowest cost for continuous operation with our Flex Power System™

COMMERCIAL GRADE, BUILT FOR PROFESSIONALS

A424E & A530E AERATORS

- 125v Li-Ion battery with a 2,400 watt brushless motor
- 17.5" working width | 19" working width
- 24 (5/8") | 30 (5/8") closed spoon coring tines
- 4.4" x 7.8" | 3.8" x 4.2" aerating pattern
- Freewheeling outer tines for ease of turning with tines in the ground (530e only)
- Welded heavy-gauge steel chassis
- Power Capacity is 624 watt hours (dual battery)
- Up to 60 minute run time (dual battery)
- Battery recharge time is 45 minutes
- 2 year warranty

COMMERCIAL GRADE, BUILT FOR PROFESSIONALS

PR18E & PR22E POWER RAKES

- 125v Li-Ion battery with a 2,400 watt brushless motor
- 18" working width | 22" working width
- Quiet operation resulting in a significant noise reduction vs. gas
- 3-position ergonomic handle with foam padding
- Welded 10-gauge steel chassis
- Power Capacity is 624 watt hours (dual battery)
- Up to 45 minute run time (dual battery)
- Battery recharge time is 45 minutes
- 2 year warranty

BLUEBIRD[®] **ELECTRIC**

COMMERCIAL GRADE, BUILT FOR PROFESSIONALS

M22E SELF-PROPELLED

- 125v Li-Ion battery with a 1,500 watt brushless motor
- 22" deck width
- Rear wheel drive
- 7 position single point cut height adjustment (1.25"–3.75")
- 12" rear wheels | 8" front wheels
- Variable cutting speed (0 – 2.2 mph)
- 3-in-1 (bag, mulch, side discharge)
- 18.5 gal. bag capacity
- Front bumper
- Power Capacity is 624 watt hours (dual battery)
- Run time is up to 60 minutes (dual battery)
- Battery recharge time is 45 minutes
- High vacuum design which provides a superior cut quality
- 2 year warranty

COMMERCIAL GRADE, BUILT FOR PROFESSIONALS

HM200E HOVER MOWER

- 125v Li-Ion battery with a 1,500 watt brushless motor
- 20" cutting width
- 1" – 3" cut height adjustment (0.25" increments)
- Best in class CG (Center of Gravity)
- Reversible stainless steel flail cutting blades (x3) – standard
- Reversible nylon swing blades (x3) or Triple-edged Co-polymer string (x2) – optional
- Weight (without battery) 22 lbs.
- Variable cutting speed (0 – 2.2 mph)
- Power Capacity is 624 watt hours (dual battery)
- Run time is up to 45 minutes (dual battery)
- Battery recharge time is 45 minutes
- 2 year warranty

COMMERCIAL GRADE, BUILT FOR PROFESSIONALS

TCS12E TOP HANDLE CHAINSAW

- Latest high output battery technology – Samsung 21700 cells – 24v Li-Ion battery – 4Ah
- Brushless motor
- 12" Oregon Double Guard® bar
- Oregon 90PX chain
 - 3/8" low profile, 0.043" gauge, narrow kerf
 - Sharpens with 5/32" file or 1/8" grinding wheel
 - Chamfer Chisel™
- Up to 1 hour run time
- Higher torque output vs. competitors
- Minimal speed (RPM) drop when cutting
- Lightest weight top handle chain saw available (6.0 lbs. including battery)
- 2 year warranty

COMMERCIAL GRADE, BUILT FOR PROFESSIONALS

CS18E CHAINSAW

- Designed and built for the most demanding commercial applications
- 125v Li-Ion battery with a 1,000 watt brushless motor
- 18" Oregon bar
 - Oregon 72LGX chain
 - 3/8" pitch, 0.050 gauge
 - Sharpens w/ 7/32" file or 3/16" grinding wheel
 - Full chisel chain
- Automatic chain oiler
- Weight (without battery) is 12.2 lbs.
- Power Capacity is 312 watt hours (single battery) 936 watt hours (backpack battery)
- Run time is up to 30 minutes with a single charge and 90 minutes with the backpack battery
- Battery recharge time is 45 minutes
- Higher torque output vs. competitors
 - Minimal speed (RPM) drop when cutting
- 2 year warranty

COMMERCIAL GRADE, BUILT FOR PROFESSIONALS

BL680E HANDHELD BLOWER

- Designed and built for the most demanding commercial applications
- 125v Li-Ion battery with a 1,000 watt brushless motor
- Max. air speed 125 mph
- Max. air volume 680 CFM
- Variable speed trigger with cruise control
- 3 speed setting (7,000 | 15,000 | 22,000 RPM)
- Weight (without battery) 8.1 lbs.
- Power Capacity is 312 watt hours (single battery) 936 watt hours (backpack battery)
- Run time is up to 30 minutes at max speed with a single charge and 90 minutes with the backpack battery
- Battery recharge time is 45 minutes
- 2 year warranty

BLUEBIRD[®] **ELECTRIC**

COMMERCIAL GRADE, BUILT FOR PROFESSIONALS

LTD1000E DETACHABLE TRIMMER

- 
- Designed and built for the most demanding commercial applications
 - 125v Li-Ion battery with a 1,000 watt brushless motor
 - 17.5" cutting width
 - 0.095" diameter trimmer line
 - Loop handle
 - Variable speed trigger
 - 3 speed settings (4,000 | 5,000 | 6,000 RPM)
 - Weight (without battery) is 12.6 lbs.
 - Power Capacity is 312 watt hours (single battery) 936 watt hours (backpack battery)
 - Run time is up to 60 minutes with a single charge & 180 minutes with the backpack battery
 - Battery recharge time is 45 minutes
 - Optional pole saw & articulating hedge trimmer (11 position / 180 degrees) attachments available
 - 2 year warranty

COMMERCIAL GRADE, BUILT FOR PROFESSIONALS

HT1000E HEDGE TRIMMER

- 125v Li-Ion battery with a 1,000 watt brushless motor
- 22" dual cutting blades
- 1.3" max. cutting diameter
- 3,400 RPM blade speed
- Rotating rear handle
- Weight (without battery) 12.3 lbs.
- Power Capacity is 312 watt hours (single battery) 936 watt hours (backpack battery)
- Run time is up to 60 minutes with a single charge and 180 minutes with the backpack battery
- Battery recharge time is 45 minutes
- 2 year warranty

COMMERCIAL GRADE, BUILT FOR PROFESSIONALS

FLEX POWER SYSTEM™

- Innovative technology that allows continuous job site running of equipment at a significantly lower up front cost vs. competitors
- Includes backpack with capacity of up to 3 individual 125v Li-Ion batteries for a total of 936 watt hours
- Batteries can be charged individually resulting in a total recharge time of only 45 min. compared to 3 – 5 hrs. for all other battery back packs
 - Eliminates the need to purchase multiple expensive back pack batteries to achieve continuous job site operation
- Can be used with all 125v BlueBird battery products

68 South Squirrel Road
